# KINETICS

---

## MODERN NAIL BRAND

At Kinetics, we're all about creating modern nail products.

## INNOVATIONS

Our lab is our key. We have our own R&D team with 17 chemists, and we create over 500 formulas each year. A large part of our innovation is dedicated to developing safer products. We use the cleanest, safest raw materials available. We were the first to remove TMPTA and TPO from our formulas and the first to introduce HEMA-free gel polish.

## MODERN NAILS

We believe in a clean, minimalistic nail aesthetic, created with modern products and modern techniques. We also trust in modern colors. For the past eight years, we have brought fashion trends to the nails by launching four collections per year.

## MINIMALISTIC DESIGN

Our design is clean, minimalistic, and simple. We believe that good design is timeless. We invest time in creating designs that last 5, 10, and 20 years. Our SolarGel bottle and Perfumed Lotion packaging were created 15 years ago and remain as modern today as they were back then.

Simplicity and honesty define us. Challenges drive us forward.
